PHYSICS: Physical Science Option
Bachelor of Science (First-Time Freshman 4-year Roadmap - Even Year)

The purpose of the degree roadmap is to serve as a guide for planning one’s academic coursework required to complete a specific major semester by semester. The roadmap is subject to change and is NOT to be considered a replacement for advisement with an academic advisor. Students who choose majors that require a minor should take this into consideration when customizing their own academic plan. See reverse side for additional information.

Career Options
Students can find technical positions in industry, government or teaching; or pursue advanced degrees for research, design, or analysis in physics, engineering or related fields. The campus is surrounded with electronics, aerospace, and semiconductor companies, among others, who hire physicists to work in applications of optics, electrical engineering, biophysics, computer science, geophysics, aerospace, and astronomy.

NOTE: This is a single field major. No minor required. Please contact the Physics Department for further information: (310) 243-3591.

Occasionally, courses listed on the roadmaps may be offered in only specific semesters or on an as needed basis. Students are strongly urged to refer to the University Catalog, Class Schedule, or consult with an academic advisor each semester to ensure that they are progressing toward graduation in as timely a manner as possible. Please contact the Physics Department for further information: (310) 243-3591.
